

**RESULTS OF TENDER  
IFT 2023-17**

**DESIGN A1 – “Vektor” Complex  
A1-lot-1: Automated Radiation Monitoring System**

13 September 2023

- 1 The Science and Technology Centre in Ukraine (STCU) is an international organization involved in the non-proliferation of weapons of mass destruction. STCU's mission is to support research and development activities for peaceful applications by scientists and engineers formerly involved with the development of weapons of mass destruction, to advance global peace and prosperity through chemical, biological, radiological, and nuclear risk mitigation by supporting civilian science and technology partnerships and collaboration that address global security threats and advance non-proliferation.
- 2 The STCU is implementing a number of projects concerning “Modernisation of the Dosimetric Control System in the Exclusion Zone and Environmental (Radiation) Monitoring at the Vektor Complex and the Buriakivka Disposal Facility” funded by a number of donors including the European Union, Norway, United Kingdom and United States of America.
- 3 In the course of implementing these projects the STCU hereby invites you as a potential supplier to submit your tender for **the A1-lot-1: Automated Radiation Monitoring System, DESIGN A1 – “Vektor” complex**, described in the tender documents.
- 4 The forthcoming tenders will be open to firms and companies from all countries except for those under UN, US or EU sanctions.
- 5 The STCU announces that contract 2023-17 was awarded under the tender as follow:

**“Baltic Scientific Instrument (BSI) Ltd.  
Contract value 981.459,00 EUR**
